### **RECOVER YOUR CAR FAST WITH LOJACK.**

Car theft is big business in the U.S. and throughout the world. More than 1.2 million cars were stolen last year alone. That's a theft once every 25.5 seconds, and more than \$7.6 billion in annual losses.

Most car thieves are part of extremely organized crime rings and know how to steal any car they want. Locked doors won't stop them and security systems don't scare them off.

You can't really stop someone from stealing your car. But you can help Police track and recover your car quickly with LoJack, the only Stolen Vehicle Recovery System operated by the Police.

With LoJack, you have a better than 90% chance of recovering your vehicle -- usually within 24 hours and often within just a few hours.

Your car is one of your most important and possibly one of your most beloved possessions. Protect it with LoJack.
